Remote Working  
Project Management

## Profile

Passionate and experienced Project Manager with experience in software development and CS principals. I bring unique knowledge and perspective to a Project Management role because I have knowledge of what goes on behind the scenes. I am able to be more accurate in project deadlines and road maps because of this. I would love to work for a start-up that is looking for an ultra-organized, enthusiastic candidate.

## Employment History

### Project Manager, ATL Solutions, Remote

NOVEMBER 2018 – PRESENT

- Strategically organized teams to create full-stack applications using Jira, Asana, Adobe Suite, and Gmail.
- Developed and designed landing pages and marketing pages using HTML, CSS, and CMS tools.
- Since joining the company overall revenue increased by 45%.
- Created over 50+ landing pages and static websites.

### Engineering Manager, Sirch, Remote
